

A LINGERING LOOK

SANDPEARL RESORT EXPERIENCE

Opened in August 2007 as the first new resort built on Clearwater Beach in 25 years, the Four Diamond Sandpearl Resort is tucked seamlessly into Florida's pristine Gulf coast along miles of pearlescent white sand beaches. For nearly a century the original Clearwater Beach Hotel - built as a summer bungalow by a Florida lumberman in 1917 - reigned as the crown jewel of the destination, and passed its rich legacy onto the Sandpearl, for future generations to call their own.

This fresh resort blends eco-conscious luxury with unparalleled amenities and features 253 guest rooms and suites, full-service spa, upscale and "toes-in-the-sand" dining and state-of-the-art meeting/event space, as well as Enrichment Programs from Astronomy Nights and Artists-in-Residence to Marine Discovery Kayaking and Organic Cooking Classes.

As the sun sets over the Gulf, the day wanes with a nightly beach sunset ritual, where a select guest is chosen to ring the original dinner bell from the historic Clearwater Beach Hotel.

LAID BACK LUXURY

Reflecting an elegant island style, the laid-back unpretentious atmosphere embodies a "British Colonial meets Tommy Bahama" feel. The resort décor is elegant, yet always comfortable, with a "no jacket required" philosophy. Plantation style espresso wood doors span the width of the first floor, opening graciously into the lobby, welcoming guests with the crisp scent of Island Breeze and unveiling conch chandeliers ensconced in wrought iron, as well as other marine life including Egret sculptures, coral and shells displayed among cozy clusters of "sink in" furniture.

A collection of \$1 million of artwork from legendary Florida artist Christopher Still and other renowned names graces the walls with classic Florida scenes.

ECO-CONSCIOUS

Sandpearl Resort is the first resort in Florida to achieve LEED Silver Certification by the U.S. Green Building Council, and one of only 15 worldwide. The resort makes environmental stewardship a priority with features including in-room energy management systems, low emission construction materials, geothermal pool heating system and extensive water conservation practices.

ACCOMMODATIONS

Capturing the sophisticated, yet comfortably casual essence of Southwest Florida, guest rooms feature airy, Olde Florida inspired décor with citrus-hued interiors, wainscoting and black and white photography of seascapes and marine life.

Evening turn-down service with “pearls of wisdom” and daily morning newspaper “doorstep” delivery.

Bathrooms with expansive marble vanity, lighted makeup mirror and Gilchrist & Soames amenities.

50 suites offer one- and two-bedroom floor plans and feature additional amenities including in-room washer and dryer, full gourmet kitchen and roman tubs. The hotel also features a Presidential Suite with striking Gulf views and expansive terrace and a free-standing two story Gulfside Suite right on the beach.

As a part of the resort’s conservation efforts, an in-room energy management system monitors room temperatures remotely so that occupied rooms are controlled by the guest, but unoccupied rooms can be adjusted to reduce expending excess energy.

System cut-offs on sliding glass doors automatically prevent unintentional energy waste when guests are enjoying a balmy breeze from their balcony.
